BeNeLux METABOLOMICS centre

Online Benelux Metabolomics Seminar on

Thursday
26 November
15:00-16:30

Register here

"Innovative miniaturized technologies to enable high-throughput metabolomics"

Programme

15:00 Introduction
Professor Thomas Hankemeier,
Metabolomics and Analytics Centre, Leiden University

15:10 Real-world applications of microfluidics in metabolomics
Dr. Charlie Clark, Metabolomics and Analytics Centre, Leiden University

15:35 An inline sample concentrator for metabolomics and environmental monitoring
Dr. Alex Joesaar, Metabolomics and Analytics Centre, Leiden University

15:50 Unravelling the heterogeneity of single cells through metabolomics
Dr. Ahmed Ali, Metabolomics and Analytics Centre, Leiden University

16:15 Panel discussion

Thursday
26 November
15:00-16:30
